**MNK International has identified a lack of competitive capacity from the International Reinsurance market for energy related risks, in particular small and medium sized businesses.**

**We have therefore established an Energy facility specifically designed to meet the demands of Energy clients and provide competitive reinsurance solutions for them.**

## Authorised Classes Of Business:

**a) Upstream Energy** – standard upstream operational business onshore and offshore, mobile drillers / Mobile Offshore Production Units / accommodation units, land rigs, stand alone Operators Extra Expense (excluding wildcat and/or unbalanced exploratory drilling), upstream package business, offshore construction (only small projects and short periods).

**b) Midstream Energy** – tank farms, terminals, pipelines, gas gathering and gas plants.

**c) Downstream Energy** – small skimmer refineries and excess layers on refineries, petrochemical or fertilizer risks.

**d) Power Generation including Hydro Power and Renewable Energy** – Conventional power plants (including coal) up to a Total Insured Value of USD 150,000,000.

**Solar** – operational parks using tried and tested technology up to Total Insured Value of USD 150,000,000.

**Wind** – operational farms using tried and tested technology up to Total Insured Value of USD 150,000,000.

**Battery Energy Storage System** – up to a Total Insured Value of USD 50,000,000.
